# Base station communication terminal

The collaborative sensing of multiple Integrated sensing and communication (ISAC) base stations is one of the important technologies to achieve intelligent transportation. ...

Provided is a base station that relays communication between terminals and can identify, at an early stage, a precoding matrix to be applied to a terminal. This base station ...

The communication terminal that has received the notification of the configuration from a first base station, which is the base station that has determined the configuration, uses ...

Laser communication products, superior in terms of volume, weight, power consumption, can effectively solve the problems encountered by traditional communication methods, free from ...

This terminal comprises: a reception unit that receives, from a base station, a low-power wake-up signal corresponding to a plurality of terminal types; and a control unit that ...

Masakazu Ono of Tokyo (JP) BASE STATION, COMMUNICATION TERMINAL, AND COMMUNICATION METHOD FOR BASE STATION This abstract first appeared for US ...

(54) TERMINAL, WIRELESS COMMUNICATION METHOD, AND BASE STATION (57) To appropriately update a beam in relation to BFR. A terminal according to one aspect of ...

Explore the fundamentals of satellite ground stations, including their architecture, receiving and transmitting processes, and key specifications.

The Bottleneck Nobody Predicted Recent GSMA data reveals a 217% increase in simultaneous connections per urban base station since 2020. This isn't just about smartphones anymore - ...

[0024] In the embodiments of the present invention, a base station (base station, BS for short) may be a device communicating with a terminal (terminal) or another ...

Provided is a base station that performs communication conforming to the 3GPP standard, the base station being characterized by: including a transmission means for transmitting a ...

This base station includes: a control unit that, on the basis of a change in traffic load, determines whether to change a function for transmitting system information, said ...
