# European Solar PV Modules

How many companies in Europe manufacture solar PV modules?

Today, at least 38 companies are active in Europe manufacturing the equipment and machinery that produces vital steps of the solar PV module supply chain, including cells, ingots, wafers, and polysilicon. EU Clean Industrial Deal: Opportunity for renewables and European manufacturing

Where are solar PV module equipment manufacturers based?

Current solar PV module equipment producers are based across nine European countries (DE, FR, IT, NL, CH, ES, HU, FI, NO). The majority - 75% of European solar equipment manufacturers - are active in machinery for the cell and module segments.

What is the EU solar manufacturing map?

The EU Solar Manufacturing map gives an overview of solar manufacturing companies active along the solar PV chain. On this map, you'll find manufacturers spanning from polysilicon to module as well as the aggregate production capacities for each segment.

How big is the Europe solar PV market?

The Europe solar PV market size crossed USD 63.1 billion in 2024 and is set to register at a CAGR of 7.1% from 2025 to 2034, due to the growing focus on green energy and net zero initiatives.

Several measures have been taken to further support the European solar PV manufacturing sector. In 2023 and 2024, European ...

Discover Best 59 Solar Panel Manufacturers in Europe with their stringent certifications, and quality solar panels made in Europe.

Solar panels imported or manufactured in the European Union are subject to various regulations, directives and standards. ...

The EU Solar Manufacturing map gives an overview of solar manufacturing companies active along the solar PV chain. On this map, you'll find manufacturers spanning from polysilicon to ...

US solar PV module prices have stabilised at just over US\$0.28/W in the three months to November 2025, according to Anza.

AE Solar brand has become synonymous with high-performing, top-quality photovoltaic modules and has specialized in PV ...

ETIP PV, SolarPower Europe, PVthin, European Solar Manufacturing Council, IECRE, Eco-Design and Energy Labeling for Photovoltaic Modules, Inverters and Systems - ...

The EU solar PV market in 2024-2025 stands at a pivotal moment, influenced by policy-driven growth, persistent pricing pressures, ...

---

The Europe solar PV module market size exceeded USD 63.1 billion in 2024 and is projected to record over 7% CAGR from 2025 to 2034, driven by ...

Re-shoring 30 GW of solar PV manufacturing to the EU will require up to 50,000 new, skilled workers, above all in the sectors of cells, modules, and ingots/wafers.

In fact, in 2023, less than 15% of the EU's solar photovoltaic (PV) modules were produced domestically, with imports, mainly from China and ...

Comprehensive ranking of Europe's top solar companies in 2025. Profiles include market share analysis, technology innovations, and key solar ...
