
Global solar Inverter 2025

How did solar inverter market share grow in 2021?

Global top 10 solar photovoltaic (PV) inverter vendors shored up 82% of market share in 2021, increasing by 2 percentage points compared to 2020, says Wood Mackenzie, a Verisk business (Nasdaq:VRSK). Global PV inverter shipments grew 22% or 40,250 MWac (megawatt, alternating current) to 225,386 MWac in 2021 compared to 2020.

Are solar inverters the future?

Inverters of the past simply fed solar power into the grid. Inverters of the future are required to instead dynamically work with the grid to increase its resilience, reliability, safety and security.

Which companies dominated the global inverter market?

Huawei's inverter segment also delivered an outstanding performance, with the two companies dominating the global market by a wide margin. Other enterprises, such as TBEA, Senergy, Deye and Ginlong (Solis), followed closely behind.

Which inverter companies were most impacted by the IPO market?

Other enterprises, such as TBEA, Senergy, Deye and Ginlong (Solis), followed closely behind. The capital market also recognised the inverter sector when SOFAR successfully went public in April, despite the cooling new energy IPO market. However, market fluctuations had a significant impact.

The global solar inverter market will contract for two consecutive years, declining 2% to 577 GWac in 2025 and a further 9% to 523 ...

PVTIME - On 10 June 2025, the PVBL 2025 Global Top 100 Solar Brands rankings and the PVBL 2025 Global Solar Brand Influence Report were unveiled at the 10th Century ...

The global solar inverter market will contract for two consecutive years, declining 2% to 577 Gigawatts AC (GWac) in 2025 and a further 9% to 523 GWac in 2026, according to ...

After record shipments in 2024, the global solar inverter market is set for a two-year downturn, shrinking 2% to 577 GWac this year and another 9% to 523 GWac in 2026, ...

China--the world's leading solar PV market by volume and production--will see its inverter sector contract by 5% in 2025 to 304GW, a greater contraction than the global average.

China, the world's leading solar PV market, will see its inverter sector contract by 5% in 2025 to 304GW, a steeper decline than the global average and its first drop since 2019. ...

The global solar inverter market is set to contract over the next two years, according to analysis from Wood Mackenzie. The consultancy is forecasting the market will fall to 577 ...

PVTIME - On 10 June 2025, the PVBL 2025 Global Top 100 Solar Brands rankings and the

PVBL 2025 Global Solar Brand Influence ...

Wood Mackenzie forecasts a two-year decline in the global solar inverter market, with shipments dropping in 2025 and 2026 due to market uncertainties. Recovery is expected ...

The global solar inverter market will contract for two consecutive years, declining 2% to 577 GWAC in 2025 and a further 9% to 523 GWAC in 2026, according to Wood ...

Dublin, May 21, 2025 (GLOBE NEWSWIRE) -- The "Photovoltaic (PV) Inverters - Global Strategic Business Report" report has been added to ResearchAndMarkets 's offering. The global ...

The solar energy industry is undergoing rapid growth, driven by rising global demand for clean and sustainable power. In 2025, solar inverters -- the critical components that convert DC ...
