
Inverter Price Generator

How much does an inverter Generator cost?

Prices range from about \$350 for a modest option that can power a few key appliances to more than \$5,000 for a permanently installed model that turns on automatically and can handle everything in your home. CR members can read on for a list of top-rated inverter generators from each of the four size categories.

What is an inverter generator?

An inverter generator is a type of generator designed to provide a clean power output with a low Total Harmonic Distortion (THD). This makes them well suited for powering equipment and devices with sensitive electronics, such as laptops, smart TVs, mobile phones, etc.

What is the best inverter generator?

The Honda EU7000 is the best inverter generator thanks to its stellar versatility, efficiency, and low-noise performance. Providing 7,000 starting watts, you can use it for anything from camping to RVs, to even basic home backup during an emergency. No matter what you use it for, you'll barely hear its 52-60 decibels of volume.

Are Inverter generators good for camping?

Inverter generators generally cost more than regular portable generators, but as a group, they perform better in almost every way. Their compact size and low noise level make them versatile enough for camping and tailgating, not just power outages.
