# Is there a replacement for the solar container outdoor power

Can you put solar panels on a container?

We put solar panels on a container for a guy who was powering an RV on his land. He had a generator, and the container was full of batteries to support himself. When we're on top of a container, we need to build a custom racking system to hold up more than one row of panels, which is what we ended up doing for him. (See in image with tan container.)

What makes LZY solar containers different?

LZY Solar Containers use proprietary folding panel technology to maximize power generation while maintaining standard shipping dimensions.
