
Japan's first energy storage project

What is Japan's first energy storage project?

In 2015, we started Japan's first demonstration project covering energy storage connected to the power grid in the Koshikishima, Satsumasendai City, Kagoshima. This project is still operating in a stable manner today. One feature of our grid energy storage system is that it utilizes reused batteries from EVs.

Why is Japan launching a battery energy storage system?

"The implementation of the LTDA is a landmark development for Japan, and is critical for long-term clean energy provision," said Yuko Watanabe Shah, Chairman of Hexa Energy Services. "We are delighted to have been able to achieve one of the first financial closes of a battery energy storage system in Japan."

How will Tokyo Gas use battery storage?

Tokyo Gas would use its experience in energy trading markets to use battery storage to contribute to stabilising the grid and enabling greater integration of renewable energy.

Will Saft supply a battery energy storage system in Fukushima?

Download the Press Release Tokyo, 12 June 2025 - Saft, a subsidiary of TotalEnergies, has been selected by leading Asian renewable energy developer Gur'n Energy to supply a battery energy storage system (BESS) for the latter's major energy storage project being developed in Fukushima, Japan.

Manoa has started commercial operation of the Helios 104 megawatt-hour/50MW battery energy storage system (BESS) in Sapporo City, Hokkaido, Japan. The BESS was ...

Tokyo, 12 June 2025 - Saft, a subsidiary of TotalEnergies, has been selected by leading Asian renewable energy developer Gur'n Energy to supply a battery energy storage system (BESS) ...

Hexa Energy Services' first battery energy storage system (BESS) project in Japan, developed under the country's new long-term capacity payment regime, has set a template for the ...

In 2015, we started Japan's first demonstration project covering energy storage connected to the power grid in the Koshikishima, Satsumasendai City, Kagoshima. This ...

Ekü Energy's APAC technical lead Nick Morley, speaking in a panel discussion on the Japanese market at Energy Storage Summit Asia ...
