
Nordic DC Uninterruptible Power Supply

What is a DC uninterruptible power supply?

This power supply is supplied by mains voltage and contains an integrated DC uninterruptible power supply feed by an external battery. It is designed to supply the applied load continuously and without interruption, even when the mains power fails.

What is a DC-UPS power supply?

DC-UPS (Direct Current Uninterruptible Power Supplies) are essential wherever reliable backup of auxiliary circuits is critical to ensure system integrity and the safety of people and equipment.

How does an uninterruptible power supply work?

The uninterruptible power supplies have e.g. an adjustable maximum buffer time to protect the battery and the unit protects the battery from going into a deep discharge. Draining the battery all the way down can damage it in a very short period of time, especially if this occurs multiple times.

What makes Puls a reliable power supply?

Efficient, compact and reliable DC-UPS from PULS ensure highest system availability. Our uninterruptible power supplies are available with capacitor storage or VRLA batteries. The DC-UPS with integrated electrochemical double layer capacitors are fully maintenance free and guarantee an uninterrupted power supply for periods measured in seconds.

DCU Series DC-UPS (Direct Current Uninterruptible Power Supplies) are essential wherever reliable backup of auxiliary circuits is critical to ensure system integrity and the safety of people ...

Uninterruptible DC emergency power supply for fail-safe systems in industrial and medical applications Our DC UPS systems for 12?V / 24?V / 48?V provide an uninterruptible power ...

The reliable DC-UPS from PULS ensure highest system availability. The uninterruptible power supplies are available with capacitor storage or ...

Uninterruptible DC emergency power supply for fail-safe systems in industrial and medical applications Our DC UPS systems for 12?V / 24?V / 48?V ...

The reliable DC-UPS from PULS ensure highest system availability. The uninterruptible power supplies are available with capacitor storage or VRLA batteries.

DC system for uninterruptible auxiliary power Backup power of transmission and distribution Power plants and electricity distribution Due to more than 50 years of experience in delivering ...

Uninterruptible power supplies that use direct current (DC UPSs) are engineered to supply

secondary power to ensure the uninterrupted operation of critical systems and equipment. ...

DC system for uninterruptible auxiliary power Backup power of transmission and distribution
Power plants and electricity distribution Due to more than ...

CDVI's range of power supplies are ideal for powering access control systems, locking, or any other product requiring 230V transformation. With a range of options from 8Vdc to 24Vdc and ...

Small 16000 mah DC UPS Battery Backup 5v 9v 12v Router Modem Switch Mini
Uninterruptible Power Supply ups for router Portable No reviews yet 2 sold Zhongshan Haoze
Technology ...

Buy 24V DC / DC UPS - Uninterruptible Power Supplies. Newark Electronics offers fast quotes, same day dispatch, fast delivery, wide inventory, datasheets & technical support.

The DUPS-28-MDC-300-A02 model is a DC uninterruptible power supply with fixed-voltage multiple outputs. Thanks to its integrated ...
