# Nordic solar System

What does Nordic Solar do?

At Nordic Solar, we have made it our business to add more renewable energy to the energy system. We develop, construct and operate utility-scale solar parks and BESS in European growth markets. We also divest assets to make new investments in solar energy solutions. Dive into our business model and get insight on our strategic focus.

Where is Nordic solar launching its first battery energy storage system?

Yesterday, Nordic Solar officially inaugurated its first battery energy storage system (BESS) park in Denmark. The facility, located in Borup in the Municipality of Hillerød, marks a great milestone in the company's strategy to integrate battery storage into its portfolio of solar energy projects across Europe.

Why should I join Nordic solar?

Joining Nordic Solar means building a career with exciting opportunities. You will find a space to grow, learn and engage in a collaborative environment. Battery Energy Storage Systems (BESS) are the perfect complement to solar energy, which is one of the most predictable and cost-efficient renewable energy sources available.

Where is Nordic solar launching its first solar park in Sweden?

On Wednesday, June 25th, Nordic Solar marked a significant milestone with the official inauguration of Lindesberg Solar Park in Medinge - the company's first operational solar park in Sweden. The park is located a few hundred kilometres west of Stockholm, in the municipality of Lindesberg.
