# Outdoor power outage emergency

What is a power outage?

A power outage occurs when the electrical power goes out. Planned or unexpected, it can last for days or longer, disrupting communications, water, transportation, stores, banks and other services. This may impact needs such as lighting, heating, cooling, communication, food and medicine refrigeration, cooking and medical equipment.

How does a power outage affect a community?

Extended power outages may impact the whole community and the economy. A power outage is when the electrical power goes out unexpectedly. A power outage may: Disrupt communications, water and transportation. Close retail businesses, grocery stores, gas stations, ATMs, banks and other services. Cause food spoilage and water contamination.

Should you prepare for a power outage?

It's easy to put off preparations, until a power outage or other emergency hits and you don't have the supplies you need or know what to do. Some items become scarce in emergencies. Others are just better to have on hand before you need them, like non-perishable food and a way to store water.
