
Solar powered devices factory in Sweden

Is Sweden a good place to buy solar equipment?

By 2045, Sweden is expected to generate 100% renewable energy and emit no greenhouse gases in the country, creating several opportunities for the solar energy market there. Solar equipment manufacturers and suppliers operate across the Swedish market. Sweden is the best place to buy solar equipment.

What is the solar market like in Sweden?

The market leans towards specialization, where companies such as SVEA Renewable Solar AB and Exeger Sweden AB focus on specific niches in solar technology. Despite the presence of larger conglomerates like Vattenfall AB, the market is fairly fragmented with numerous smaller companies contributing to its dynamics.

Why is the solar sector expanding in Sweden?

The solar sector in Sweden is expanding as a result of the country's dedication to renewable energy. This sector is anticipated to be instrumental in the country's transition to a clean energy future. Sweden is increasing its investments in energy storage technologies and solar power capacity in order to achieve carbon neutrality by 2045.

Can solar energy be restrained in Sweden?

Solar energy can be restrained in Sweden, however, due to the other source of renewable energy, like the wind. On-grid systems held a significant market share in 2019 and are expected to continue to dominate the market during the forecast period due to a significant reduction in installation costs.
