
Tile-type solar roof solution

What is solar roof tile?

Solar Roof Tile designed by ANU is for single groove designed Mangalore Tiles and can be used for all types of Solar Power Applications. We have also kept the rates at par with conventional panel along with mounting structure so that there is not much of an incremental cost to switch over to Solar Roof Tile.

What are solar tiles?

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.

Are solar roof tiles a good alternative to solar panels?

You can even now buy solar roof tiles which have a similar appearance to conventional roof tiles, but even though these are less obtrusive they cost a lot more than solar panels and are less efficient too. But after taking the USA by storm with the involvement of the Tesla company, they are becoming more popular as an alternative in the UK.
