
Ulaanbaatar communications and 5g base stations

Is Mongolia launching a 4G mobile network?

Mongolia's Communications Regulatory Commission (CRC) has awarded the country's fifth mobile licence to ONDO (registered as IN Mobile Network), which plans to operate under the SuperNet brand. The firm plans to deploy 4G, 5G and IoT networks, according to its new website, with an initial focus on the capital Ulaanbaatar.

Does Ulaanbaatar have 3G?

Skytel and G-Mobile both only operate 3G networks in Ulaanbaatar and GSM-incompatible CDMA/EVDO networks in the rest of the country. On MobiCom and Unitel 2G is on 900 and 1800 MHz, 3G (HSPA) on 2100 MHz. 4G/LTE started in 2016 in Ulaanbaatar city only on 1800 MHz (Band 3) and new licenses were given out for 700 MHz (Band 28).

How many mobile connections does Unitel have in Mongolia?

GSMA Intelligence estimated Unitel's mobile connections at 1.6 million at end-Q3, placing it in the top two of four operators in Mongolia. The operator has secured an option to be the first in the nation to employ satellite connectivity services from specialist Lynk Global.

When will 5G be available in Mongolia?

On May 20, 2025, Mongolia officially launched its 5G network following the successful conclusion of a regulatory selection process led by the Telecommunications Regulatory Commission (TRC). Licenses were granted to five key telecom operators Unitel, Mobicom, Skytel, G-Mobile, and ONDO marking the formal start of nationwide 5G deployment.
