
Uninterruptible Power Supply LCD Screen

What is a smart1500lcd line-interactive UPS?

See Full Review SMART1500LCD line-interactive UPS provides battery backup and AC power protection against blackouts, brownouts, overvoltages, surges and line noise. Eight standard outlets provide PWM sine wave AC output. The large LCD indicates operation details including voltage, runtime, load, battery and operating mode.

How does an UPS system protect against surges?

Data lines connected to your equipment represent an unlocked "back door," allowing surges to enter and damage or destroy sensitive electronic components. In addition to protecting against surges on the AC power line, this UPS system protects your equipment against surges on connected phone and network lines.

How many outlets does a 900W ups have?

1500VA/900W UPS: Eight NEMA 5-15R outlets provide reliable UPS battery backup & surge protection for servers, computers, and peripherals. The six-foot NEMA 5-15P input power cord ensures easy connection to compatible AC outlets 2U RACK MOUNT UPS: Versatile mounting options in 2U rackmount space or vertical tower with included adapter.

Does ups support battery replacement?

Supports battery replacement via built-in access panel. LCD Display with dimmer switch indicates input voltage, battery capacity and a variety of operating conditions. Display is rotatable for easy viewing whether UPS is in vertical or horizontal position We have a range of accessories designed to work with our products. Check them out!
